

## EXTERIOR WOOD CLEANER

(spring cleaning)

*Efficient cleaner for exterior wood*

Exterior Wood Cleaner is a preparatory cleaner for all types of exterior wood (wooden patios, fences, exterior doors, carports, terraces, etc.) and composite. The product removes grey discolouration, green deposits and dirt. That way, your exterior wood will be as good as new again!

### INSTRUCTIONS:

01. Dampen the surface with water. Use a bucket with water and a sponge.
02. Apply some undiluted Exterior Wood Cleaner.
03. Scrub the treated area with a nylon scrubbing brush in the lengthwise direction of the wood until it is clean. This will cause the product to foam. For stubborn stains, repeat the treatment.
04. Rinse thoroughly with water until all the foam has disappeared.
05. Allow the surface to dry well until it looks and feels dry ( $\pm$  30 minutes with a temperature of 20 °C and a good ventilation).
06. Treat with the Rubio Monocoat exterior wood protection product of your choice.

## EXTERIOR SOAP

(frequent cleaning)

*Ecological soap with cleaning and nourishing effect*

Exterior Soap is a soap with a cleaning and nourishing action. This product is used to clean external wooden surfaces, which have been treated with an oil from the Rubio Monocoat exterior assortment. The soap is suitable for intermediate cleaning.

### INSTRUCTIONS:

01. Make the wooden surface wet.
02. Shake the bottle to obtain a homogeneous mixture.
03. Pour the Rubio Monocoat Exterior Soap into a bucket. Add clear water.
04. Clean the surface with a mop or a lint-free cloth.
05. Allow to dry for approximately 30 minutes.

## HYBRID WOOD PROTECTOR

(spring cleaning)

*Colours and protects exterior wood in one layer*

Was your wood treated with Hybrid Wood Protector and do you now want to refresh its colour and protect it optimally again? Then you can use the same product again in the original colour. Sanding is not necessary!

## INSTRUCTIONS:

01. Clean with clear water if the wood has no moss growth. Clean with Exterior Wood Cleaner if the wood is suffering from moss growth.
02. Allow the surface to dry.
03. Tape the frame of the trolley.
- 0.4 Mix the oil thoroughly before application. Apply a layer Hybrid Wood Protector with a sponge.
05. Allow about 10 minutes to react. Then remove any excessive oil by smoothing the surface with the same sponge (without adding new product).
